

1. The city I currently live in is McKinney and my zip code is 75072.

2. TX House of Representatives

My Texas House of Representatives is Richardson Keresa. She is a Republican who supports issues like border security. She supports additional state law enforcement and military to the Texas border to stop illegal crossing and crime (Keresa Richardson for Texas Issue). She also prioritized parents' control over children's education. She addressed that “We need to give parental rights back to parents and provide them with real options” (Meet Keresa Richardson). Another issue that she supports is creating affirmative defense by introducing bills “relating to affirmative defenses to prosecution for certain criminal offenses involving material or conduct that may be obscene or is otherwise harmful to children” (HB 2030). One issue that I think she does not address is the environment I think is important because McKinney is growing fast so we want to make sure that the environment is safe. Richardson was elected in 2024 against Tony Adams, and began serving in January 2025. Her term is going to end on January 12, 2027. She has not said anything about reelection. When outside of the office, she is a business owner.

US House of Representatives

My US House Representative is Keith Self. He is a Republican. He prioritizes on defending international security challenges from foreign by passing State Reauthorization package that include “the creation of the Under Secretary for International Security Affairs and several relevant security-oriented bureaus, known together as the T-Family” (Keith Self 15 Wins in Department of State Reauthorization Bill). He supports laws that require people to show ID when voting to make sure that only U.S. citizens can vote, in the podcast he said that “Voter ID is a foundational principle to ensure that U.S. citizens — the ones who are supposed to vote in an election — are the ones voting.” (Congressman Keith Self Talks Mail-In Voting). Another big issue that he supports is to accelerate the adaptation of AI for military defense missions, in the introductory amendment he wants to expand the use of AI for better “decision-making, lower operational costs, and enhance warfighter effectiveness” (Congressman Keith Self Introduces Eight Amendments to FY26 NDAA). One issue that he does not address is education I think is important because McKinney schools are getting more students as the city grows and kids need to access to more resources. He is re-elected against Sandeep Srivastava in 2024. He won the election in 2024, his term ending on January 3, 2027.

3. TX Senators

My TX Senator is Angela Paxton. She is a Republican. She prioritized protecting children by leading efforts to protect children from harmful or addictive contents in the rise of technology (It's Time to Hold Big Tech Accountable). Another issue that she supports is the education freedom of all Texas students by introducing a bill that

establishes an Education Savings Account program (SB 2483). She also supports reducing property taxes, she is leading to prevent the increasing of property taxes and keeping money in your pockets (Senator Angela Paxton Issue). One issue that I think she does not address is the environment I think is important because McKinney is growing fast so we want to make sure that the environment is safe. She is re-elected against Rachel Mello in 2024. She won the election in 2024, her term ending on January 9, 2029. She is a full time legislator.

US Senators

My US Senator is Ted Cruz. He is a Republican. He supports veterans by introducing a bill that helps veterans in Texas pursuing commercial aviation careers (Sens. Cruz, Colleagues Introduce Bill to Support Veterans Pursuing Aviation Careers). He also prioritized the growth of AI, he wanted the US to make AI tools that lead the world that can help companies and international competition (Cruz unveils new AI framework as blueprint for future legislation). Another issue that he prioritizes is creating jobs, he believes that leading the Commerce Committee can give him a powerful role in shaping policies that can affect 40% of the US (Commerce Committee Chair Sen. Ted Cruz prioritizes jobs, big tech oversight). One issue that I think she does not address is the environment I think is important because Texas is growing fast so we want to make sure that the environment is safe. He is re-elected against Colin Allred in 2024. He won the election in 2024, his term ending on January 3, 3031.

4. Texas Officials

My Texas Governor is Greg Abbott. He is a Republican. He prioritizes cutting property taxes so homeowners can pay less by pushing for a big tax relief plan and cutting the sneaking in tax hikes without voters approval (Abbott Names Legislative Priorities). He also supports fixing water problems. He plans to invest \$1 billion in water projects that can help finding new water sources and making sure we have enough water for the next 50 years (State of The State). Another issue that he supports is protecting children, he issued an executive order to ban sales of hemp items to children that can cause health risk (Governor Abbott Issues Executive Order To Protect Children From Hemp Products). One issue that he does not address is healthcare I think is important because a lot of Texas families cannot afford high medical bills. He won re-election in 2022, his term ending on March 3, 2026.

Lt. Governor

My Texas Lt. Governor is Dan Patrick. He is a Republican. He supports providing school choice, He supports EB2 that establishes ESA so families can use state money to send their kids to private schools. He also prioritized protecting children and public health by calling for banning THC products that could harm children and health risk. He and

Governor Abbott executive order said that the only way to protect kids is through a complete ban (Texas Lt. Gov. Dan Patrick slams Gov. Greg Abbott's executive order regulating THC products). Another issue that he is prioritizing is border security. He wants funding to hire more state troopers for border security and improve disaster response with new equipment(First Round of My Top 40 Priorities Is Out!). One issue that he does not address is healthcare I think is important because a lot of Texas families cannot afford high medical bills. He won re-election in 2022, his term ending on March 3, 2026.
